Council District 15 Report: Caitlin Muldoon gave updates on her work in the HGNNC area. The application period for new speed humps opened in May. The next opening will be January 2020. Let her know of streets which need speed humps so that Council District 15 can assist with the application process. Sarah Bell is again the public works liaison for CD 15. Since January 2019, there have been 20, 315 requests for service via 311 throughout Council District 15. To report abandoned vehicles, use 1-800-ABANDONED and not 311. If the vehicle is still not removed, email Caitlin the vehicle information for follow up. The Summer Lights program at a number of City parks begins in June. She will follow up on the 127th Street issues raised by residents and also work with District 5 Representative Llewyn Fowlkes on this.

Mayor’s Office: Johanna Rodriguez explained that she represents the Council District 15 area on behalf of Mayor Garcetti. She noted that per the data from the January Homeless Count, homelessness is up 12% in the Los Angeles County area and 16% in the City of Los Angeles.
Mayor Garcetti is taking full responsibility for the crisis. Meanwhile, 21,000 people were housed during 2018. 2,000 beds have been created in temporary shelters via A Bridge Home program during 2019. There are 1400 apartment developments in the pipeline which will be creating 10,000 units. The newly passed linkage fee will require developers to either provide affordable units in their developments or pay into a fund which will be used to pay for affordable units. The Mayor has supported the increase in the minimum wage to help workers be better able to pay for housing. His office has also publicized ways to avoid becoming homeless, such as the workshops on tenants rights that have been held throughout the City. There is a program for seniors which supports senior rent for five years until new affordable apartment units are available. She also mentioned the Summer Night Lights program which keeps young people busy during the summer.
