Guest Speaker from HOPICS Mikal spoke regarding outreach to the unhoused for the different housing projects that have been set up. Mikal stated that **SPA -6** and **SPA-8** have done a lot of outreach to the unhoused. It was also stated that some of the available housing has been taken for clients outside of the community, which creates a longer waiting period for those living in the community.

The **Representative** from the **Mayor's Office**, **Joycelyn Dominquez**, stated they are working on getting the 2023-2024 budget approved for the different services needed to help get the homeless housed, keep them safe, and assist with mental health issues. The Mayor's Office will be submitting the budget soon.
